## 🎯 Career objective

To pursue a challenging career as a Full-Stack Developer where I can leverage my technical skills, problem-solving ability, and teamwork to build efficient solutions, take on responsibilities, and contribute to achieving organizational goals with innovation and dedication.

## 🎓 Education

MS ENGINEERING COLLEGE, B.E(CSE), <b>8.82</b> CGPA	Jul 2022 - Present(2026)
ST.FRANCIS DE SALES PU COLLEGE, PUC 80.6% (PCMB)	Mar 2020 - Jul 2022
SUJANA CONVENT, SSLC 81%	Apr 2020

## 🛠 Skills

- **Python** • **DSA**
- **Frontend** : HTML, CSS, JavaScript, React, Canva .
- **Backend** : Node.js, Express.js . • **Database** : PostgreSQL, MySQL, MongoDB .
- **Git** • **Github** • **Jira** • **Netlify** • **Render** • **GCP**
- **Communication Skills** • **Teamwork** • **Leadership**

## 🗣 Languages

- English • Hindi • Tamil • Kannada

## 🏆 Certificates

- MERN Stack (Udemy) • Backend Developer(MindLuster)
- Python(infyspringboard) • Main Event Coordinator(4 events)

## 📁 Projects

- Real-Time Smart Quiz Platform**(MERN Stack, MongoDB, PDF Reporting) ➡
  - Built a real-time smart quiz platform with user authentication, topic-based tests, performance analytics, and downloadable PDF reports.
  - Deployed the application using MERN stack with cloud integration (Render/Netlify, GCP) ensuring scalability and seamless user experience.
- Job Application Website**(React, SQL Database, Cloud Deployment)
  - Built a comprehensive job & admissions portal for managing job listings, government exams, admission updates, results, and resources in one place.
  - Implemented features like document uploads, webinar updates, and categorized job sections, improving accessibility and user engagement.
- Excel Analytics Platform**(MERN Stack, Role-Based Auth, Data Visualization)
  - Developed a web-based platform to upload, process, and analyze Excel files with automated data processing and statistical analysis.
  - Implemented role-based authentication (user/admin/super\_admin) and built interactive dashboards with visualization tools for real-time insights and reporting.

## 🏢 Industrial Visit

Attended the AI-DLC **Amazon AWS** Conference on “The Evolving Role of Generative AI in Software Development,” gaining hands-on insights into Amazon Q, Agile methods, and AI-driven workflows.

## 🎓 Internship

- Full-Stack Development Internship at **Navodita** Infotech (June 18 – July 17, 2025), gaining hands-on experience in frontend & backend development.
- Web Development Internship offer from **Zidio** Development, a **3-month** remote, **stipend**-based internship (Aug 1 – Nov 1, 2025)(Ongoing)
- Internship Offer from **Cognifyz** Technologies as a Full-Stack Development Intern (15 Aug – 15 Sep 2025, Remote).

## 🏆 Achievements

- Secured 1st place in **Bug Bounty** and 2nd place in **AlgoCode** among 50 participants, and 1st place in **Poster Making** among 9 teams at MSEC.
- Successfully organized and hosted events as a Chef Host & Event Manager for Farewell and **Project Exhibition** at MSEC.
